Subject: ESA Comments

I have pulled out additional comments that should go under the ESA topic and compiled them into this document. I found 5 comments from Powertech that had not been included in Cadmus's document. Thankfully, Omar was already aware of these and has an idea about how to address them.

I have also attached our consultation request letter. Ex. 6 Personal Privacy (PP) had a comment about a disconnect between the wording in the letter vs what USFW actually replied back in a July 8, 2019 email: The July 8, 2019 response from USFWS to EPA states that the agency concurs with EPA's conclusion that the project **will not adversely affect listed species**.
This is not the concurrence EPA asked for and should be clarified.

Omar, do you have a copy of the USFW email response? Thanks!

Valois
